COVID-19 Update

COVID-19 CDC COMMUNITY LEVELS

MEDIUM COVID-19 COMMUNITY LEVEL

You should:

- Talk to your healthcare provider about whether you need to wear a mask and take other precautions if you're at **high risk for severe illness**
- Stay up to date with COVID-19 vaccines
- Get tested if you have symptoms

The complex block contains three circular illustrations: a person with curly hair looking thoughtful, a person with long hair getting a vaccine in their arm, and a COVID-19 test kit with a swab and a vial.

cdc.gov/coronavirus

CS228021-8 02/25/2022

CDC looks at the combination of three metrics — new COVID-19 admissions per 100,000 population in the past 7 days, the percent of staffed inpatient beds occupied by COVID-19 patients, and total new COVID-19 cases per 100,000 population in the past 7 days — to determine the COVID-19 community level.

COVID-19 CASES/100,000/7 DAYS PER COUNTY

NUMBER OF NEW COVID-19 CASES IN LAST 7 DAYS (FOR THE LAST MONTH)

At-home positive COVID-19 test results reported to NETCHD are not included in new case counts. Due to reconciliation, numbers have been adjusted slightly to ensure accuracy.
